Western Premiers' Conference To Discuss Unoccupied Land Problem

The announcement has been made in the Manitoba Legislature that Premier T. C. Norris will call a conference of the prairie province Premiers to consider what kind of uniform legislation is necessary to deal with the unoccupied land problem in Western Canada. It is also proposed that the conference consider the position of settlers now on the land with a view of finding ways and means to increase their productivity to the country.

It need not be argued that the calling of a conference for such a purpose is timely and in the national interest, for it has been well said that the economic future of the West and of Canada as a whole, depends upon the proper settlement of the unoccupied lands along existing railway lines and upon the improvement of conditions affecting the production of basic farm products.

The forthcoming conference is the outcome of various meetings held between the Western Provincial Cabinet Ministers and the officials of the Western Canada Colonization Association.

In the memorial recently presented to the Western Governments by the Managing Director of the Colonization Association, the view was clearly and strongly expressed that uniform legislation, calling for the listing of unoccupied lands at firm prices and for a reasonable period, was the keystone to the success of any genuine colonization movement.

It is idle to advance the theory that voluntary listing of unoccupied lands will suffice, for those who are in a position to judge as to the success of any voluntary movement are seriously impressed with the statement of General MacRae that the proposed legislation is both reasonable and necessary, if the money subscribed to the Western Canada Colonization Association is to be expended in the national interest. The listing of unoccupied lands with the provincial governments will enable their Land Boards to issue maps and price lists similar to those now issued by the railway companies. Such maps and price lists will be generally distributed and will not only serve the purpose of the Western Canada Colonization Association, but as well all the land agencies throughout the provinces. In addition the necessary information will be provided to enable the Dominion Government to direct immigrants to the vacant lands near existing railway lines where homesteads are no longer available.

The unqualified endorsement given throughout the country to the proposal for provincial legislation is evidence that the people of the West are seriously anxious to effectively deal with, and find a solution for, the unoccupied land problem in the prairie provinces.

The proposed "inter-provincial Premiers' conference" will probably be held at an early date, the outcome of which will doubtless affect every community interest in the West. In the meantime every Board of Trade, Municipal Council, Farmers' Organization, and all interested public bodies and citizens, should give serious consideration to this important subject and make representations in regard thereto to their respective Governments. Some legislation undoubtedly is necessary to deal with the serious unoccupied land problem. Needless to say, every urban resident is affected by the success or failure of the farmer on the land and should therefore be vitally interested in the forthcoming Premiers' conference when agricultural conditions will be fully reviewed and an honest attempt made to find a remedy for existing ills.

Germany Lost Her Opportunity

Refused Chance to Make Voluntary Offer to Allies.

The British premier has open the very core of the problem when he notes the change of attitude in Germany's spokesman since the first days of their terror when they were as suppliant to Poch on November 11, 1918. Today Berlin is making excuses not merely for delay, but for avoidance of her debts. "She is beginning to challenge her responsibility," he says, and when her representatives "refuse to face their obligations they are cheered, and encouraged and supported."

Germany had an opportunity to make a voluntary offer, but she refused to take advantage of the offer. When forced to take action, the proposals she made were in the words of the British premier "exasperating." Today she is faced with an ultimatum backed by the rifles of Britain and the bayonets of France. If the terms are harsh Germany has only herself to blame.—The Montreal Star.

African Blacks on Rampage

Claim to Belong to Lost Tribes of Israel.

A despatch received from Johannesburg, South Africa, says a strong force of police, armed with machine guns, is concentrating in the Queenstown district, where a large number of blacks, claiming to belong to the lost tribes of Israel, have seized large estates and committed a number of crimes against the European populace.

These blacks, the despatch asserted, declare they are waiting for a divine call to return to Palestine and that their present activities are in preparation for this.

A Good Load of Hogs.

Hog raising in Western Canada is still a paying proposition despite the slump in prices of all farm products. John Hamilton, of Coalville, Alberta, recently delivered a load of hogs to a Lethbridge butcher, averaging 270 pounds each. They were nine months old and scaled this weight after a journey of eighteen miles.

Discoverer of Radium Is Remarkable Woman

Madame Curie's Position in Scientific World Is Without Parallel in History.

Mme. Marie Curie, discoverer of radium, is in New York to receive the sixtieth anniversary of this very valuable element from American women. The rise of this woman to the position of a leading scientist of the world is without parallel in history. The daughter of a poor but distinguished Polish scientist, she worked her way up in the field of her choice until today she bears the unique distinction of having, together with her husband, received the Nobel Prize award, being the first and only woman professor at the Sorbonne in Paris, of having received the ribbon of the Legion of Honor because, as she put it, "I don't like decorations," of receiving the English Albert Medal from the Royal Society of Arts, the second to be granted to a woman, Queen Victoria having received the first. There were many more honors and decorations offered, but the response in almost all instances was similar to the one given to the suggestion of the Legion of Honor award.

A STUDY OF OLD AGE

It is always interesting and reveals the fact that the blood is usually thin and lacking in the strengthening properties of young folks' blood. If you want to fill your blood with the fire of youth, build up your strength, restore your nerves, just use Dr. Hamilton's Pills. This wonderful medicine is a grand system regulator. Keeps the bowels in good condition, keeps the body free of waste and impurities. For young and old the use of Dr. Hamilton's Pills is recommended. 25¢ at all dealers or The Catarthine Co., Montreal.

Tuesday Is Calamity Day.

Statistics show that calamities are far more common—two days than on any other day of the week. Railroad disasters, fires, street accidents—the record in each case is easily held by Tuesday.

Catarth

Catarth is a local disease greatly influenced by constitutional conditions. HALL'S CATARTH MEDICINE is a "Tonic and Blood Purifier." It cleanses the blood, builds up the system, HALL'S CATARTH MEDICINE restores normal conditions and shows Nature's way to work.

F. J. Cheney & Co., Toledo, Ohio.

Telephone Subscribers Increase.

The new issue of the Manitoba Government telephone directory for Winnipeg shows an increase of 600 subscribers, there being 40,000 names in the latest, while in the January issue there were 39,400 listed.

WELL SATISFIED WITH BABY'S OWN TABLETS

Once a mother has used Baby's Own Tablets for her little ones she will use nothing else. She knows them lead her to believe there is no other medicine to equal them for any of the many minor ailments of childhood. Concerning them Mrs. Eugene Boisvert, East Aldfield, Que., writes: "My baby was terribly constipated, but after the use of Baby's Own Tablets he is entirely well again. I am so well satisfied with the Tablets that I lost no opportunity in recommending them to other mothers." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Allies Will Care For German Graves

Over 400,000 Estimated to be on French Soil.

A conference will shortly be held between the representatives of the British, French and Belgian War Graves Commissions and German representatives, with regard to the treatment of German graves in Allied countries and of Allied graves in Germany. It is estimated that there are well over 400,000 German graves on French soil, and under 30,000 French graves in Germany. It is hoped that a satisfactory solution of this problem may be reached at the conference.

Farms in New York City. There are in the limits of the city of New York 800 farms, valued at more than \$35,000,000. Five are in Manhattan, 55 in the Bronx, 54 in Brooklyn, 565 in Queens and 121 in the Borough of Richmond. The average value of a farm in the nation's greatest city varies according to location, and the average acreage value runs all the way from \$558 in the Bronx to nearly \$3,000 in Brooklyn.—New York Times.

Minsard's Liniment used by Physicians

W. N. U. 1370

Why Not Use Dried Fruit?

BY LORETTO C. LYNCH
An Acknowledged Expert in All Matters Pertaining to Household Management.

Some folks have the idea that in order to be effective, fruit must be both juicy and acid. They pass by delicious dried fruits plentiful and cheap enough to delight the heart of the most economical.

All dried fruits, as well as all Oriental fruits like figs, dates and the like, are horrifying dirty. Under the microscope this dirt is highly visible. Therefore, dried fruits must be thoroughly cleaned with a small brush and warm water. I find a new toothbrush desirable.

Then put the fruit to soak in clean cold water in a covered vessel. The fruit may be stewed in this same water when plump and much of the mineral matter that soaks out into the water may thus be conserved. Figs and dates, as well as raisins, should be scalded several times with boiling water and then spread out on a platter to dry.

In cooking any of the "dried and soaked" fruits arrange to cook slowly. This will aid in developing the natural flavor and sweetness. If you must add extra sugar, add it toward the end of the cooking. Less sugar is needed to give the desired sweetness if added at the end of the cooking.

A combination of prunes stewed with raisins and a very little lemon is a pleasing change. A delicious company dessert may be made of prunes combined with lemon gelatin. A pint of lemon gelatin is prepared and allowed to cool, but not necessarily hardened. It is then whipped to a spongy consistency with a Dover egg beater and a cupful of stewed, stoned and mashed prunes is folded in, as well as half a cup of cream whipped until stiff.

A dozen nut meats chopped may be added. The mixture is set aside to thoroughly chill, or may first be packed into molds. It is served with additional whipped cream. This makes twelve servings.

A novel frozen dessert is made by adding a cupful of apricot pulp, obtained by "squeezing" stewed apricots through a strainer, and a cupful of banana pulp to a quart of very sweet lemonade, and then freezing. The lemonade must be over-sweet, as the tongue does not recognize the sweetness of frozen dishes so readily as others.

There are for sale some stoned cherries. Have you seen them? Ten cents' worth of these, cleaned and soaked and stewed and sweetened, and their juice thickened with very little cornstarch, will make the filling of a pie such as the caterer sells for one dollar. Try it.

The string figs are cheaper than the ones in pretty boxes. First, scrub them and then put them to soak. Stew slowly, adding a little lemon skin if liked. Taste. If not sweet enough, add a little sugar. These are excellent for the first course at breakfast or as a simple dessert topped with whipped cream.

How Are You.

A New York man declares that the ordinary reply to the question "How are you?" is either trite, ungrammatical or mendacious. Frequently, too, it is elaborate and tiresome. It would be better, would it not, if more people regarded the rhymed rule in the matter, which runs: Don't tell your friends about your indigestion.

"How are you?" is a greeting, not a question.

—Boston Transcript.

The Deadly Fly.

The secret of the fly's claw is almost as deadly as his bite, for he never cleans his nails, and he always carries under them rotting meat that is rank with deadly germs. Flies do the same thing on a smaller scale; and don't forget that they never wipe their feet.—Montreal Herald.

London's Missing.

Every year no fewer than 30,000 persons are reported missing in London alone. Some of them are never seen nor heard of again; others, after weeks or months of absence, return and take up the threads of their former life as if they had never left it.

After Three Years Of Liquid Diet, Kaiser Is Picture Of Health

"I had lived on a liquid diet for three years and my case had twice been pronounced hopeless, but Tanlac has completely overcome my stomach trouble and I eat meat, vegetables and everything else I want now," said Joseph S. Kaiser, a boiler-maker, who lives at 331 Beverley St., Winnipeg.

"My trouble dates back to a spell of the flu three years ago and from that time until I took Tanlac I steadily went down hill. For a whole year I was a weak, I couldn't put my foot out of the house and while I spent hundreds of dollars trying to get on my feet, nothing helped me a particle. I just moped around the house so weak I couldn't even lift a shovel of coal. I was suffering nearly every day from dizzy

spells, headaches and awful attacks of nervousness. My skin got yellow and I fell off until I was hardly more than a walking skeleton.

"This was the fix I was in when a friend called and persuaded me to give Tanlac a trial. He was certainly a friend in need. I improved right from the first dose. I am as sound as a dollar today, have put on twelve pounds in weight and look, so everybody tells me, the very picture of health. I feel twenty years younger and the change in me is so great that my friends who know what a desperate condition I was in see me now are simply amazed. I have never known anything in my whole life to equal it."

Tanlac is sold by leading druggists everywhere.

Barnado Boy's Success

Accumulated Fortune of \$15,000 In Twenty-Five Years.

A former Barnardo boy, a farm laborer at Bowmanville, Ontario, was killed recently in an accident while working in a barn. He came to Canada twenty-five years ago from England as a boy and up to the time of his death worked as a farm laborer. He left an estate of \$15,000; \$1,000 he bequeathed to a Bowmanville hospital, \$1,000 to the Barnardo Homes in England, and the balance to a brother in England. He came to Canada penniless, and was forty-four years of age at the time of his death.

An Oil Without Alcohol.—Some oils and many medicines have alcohol as a prominent ingredient. A judicious mingling of six essential oils compose Dr. Thomas' Electric Oil, and there is no alcohol in it, so that its effect are lasting.

Bolsheviks Abandon Food Control

Order Came Too Late To Relieve Situation.

Russia's abandonment of government control of foodstuffs came too late to relieve the situation in Bolshevik Russia, according to letters received in Berlin from a family which has fled from Petrograd throughout the Bolshevik regime.

"The conditions are worse for us than they were when food was issued on cards," one letter stated. "We are told now that we may buy food, and the peasants are told they may sell food without violating government regulations. But there are no food shops. And the peasants about Petrograd have little food to sell. They don't want paper rubles."

Canadians Celebrated Empire Day.

Canadians in New York celebrated Empire Day. The flag of the Dominion was in evidence at the headquarters of various Canadian organizations and a series of social and patriotic fixtures marked the day.

The "Dumbells," the Canadian soldier entertainers, who were appearing at a local theatre, celebrated the day by giving a special performance at the Fox Hills Hospital, Staten Island, for the benefit of the soldiers there.

Use Lizard Skins For Shoes.

Skins of many uncommon animals, including apes, lizards, walruses, pythons and numerous kinds of alligators and crocodiles, are now being used for making women's footwear.

Saves Axles and Harness

Wheels turn easier and axles wear longer when they are properly lubricated with Imperial Mica Axle Grease. Its powdered mica flakes form a glassy surface for grease to work over. Thus friction is reduced and wear retarded. It costs less than any other grease because it lasts twice as long.

Imperial Eureka Harness Oil keeps your harness pliable, strong and new-looking. It gives leather a rich, black, lasting finish, protects it from moisture, and adds years to its life. It is easily applied and is a big money-saver on repair bills.

Imperial Mica Axle Grease and Imperial Eureka Harness Oil are the first choice of teamsters, farmers and liverymen. A dealer near you carries both in convenient sizes.

Saves Time—Saves Health

Here is a table drink made as quickly as you can pour hot water into the cup

INSTANT POSTUM

delights the taste, and causes none of the harm that often comes from tea and coffee.

"There's a Reason"

Old Fort Ellis and Sioux Indians

Crossing the Plains to Fort Carlton
Summer 1875.

By G. O. MASER (Little Clerk).

(Continued)

The month was July and shortly after my arrival five York boats arrived from the furthest north post in the district, Lac du Brochet, situated at the northern end of that lake and semi-arctic in climate. About half the boat crews were Chippewyan Indians. It was my first meeting with this tribe and certainly a greater contrast in appearance to that of the plain Indians could not be found. They were rather short, more Asiatic in looks, many of them bear-eared, and they were not a pleasant looking lot, but by all accounts good hunters and industrious people. Brochet was a famous fur post, and as many of these men were noted hunters, they nearly all had considerable credits with the company, goods having run short at their home posts. These balances ran from five skins to two and three hundred a man, and fortunately for us Mr. Pierre Deschambeault accompanied the brigade, he having succeeded his father before him in charge of that post and, moreover, speaking Chippewyan like a native. I and a young apprentice clerk named Jack Stewart, were detailed to the trading store and here we paid many hours settling up with these Indians who appeared to be very inferior to the Crees in intelligence.

Two or three were taken into the store at one time. Mr. Deschambeault being present, then goose-quills were solemnly counted out to them in accord with the number of skins to their credit. At first we tried to hurry the procedure, but soon found that the more haste the less speed with these primitive men, as once they were confused they would have to commence at the beginning and go all over the performance. The old deed as it was called in which the trading store was situated, was over a hundred years old, built of massive square timber, which had been carved down the Saskatchewan River. Down on the floor squatted each Chippewyan, and spread out before him were the quills, and as he kept sorting them out in various little lots, would exclaim in guttural accents his wishes. The language they spoke was very different from any of the other native languages I had heard, and sounded as if it was uttered from the back of the throat. Mr. Deschambeault would answer him in the same clucking accents and so on until my patience was sorely tried, as we were very busy and working every night. But at last a list would be given to each one and all the orders. In due time they were all paid off and then we had the boatmen to settle with, also much stuff to pack for various posts, as boats had to leave at a certain time to get at their destination before freeze-up.

Madame Belanger, who had been a Miss Marion, was a lady of much refinement, very kind to my youngsters and constantly entertained us. She had a beautiful garden in which cultivated roses formed a prominent feature, and these were quite equal to anything you would find in Eastern Canada. Madame Belanger, who had accompanied her husband to headquarters, was a gay young creature, and only too delighted to get away from the lone desolation of Lac du Brochet to the comparative civilization of Cumberland House where dances were held several times weekly. Pierre himself detested so-called

civilization, and counted the days until he could return to his beloved north country. He was known to be possessed of a considerable private income (which he took good care of) and in an incident sent down some years before, just after he was married, there was included with his private order one very indispensable article of China, that is generally kept under the bed. Some wag changed this to one dozen and again at the Fort Garry Depot the dozen—was crumpled and grossly written in, so that no less than twelve cases containing 144 of these articles were shipped to Brochet on Pierre's private account, the freight, of course, amounting to many times the prime cost. This was the first trip he had made to Cumberland since these goods were forwarded and as the story was well known we were all agog to hear the result, but Pierre remained discreetly silent in regard to it. He, however, finally produced a bale of most beautiful beaver and otter skins. "Hello," was Factor Belanger's remark, "what is this? You well know private trade is not allowed." "Well," was his slow and cautious reply, "when kind friends sent me up so much skin I let the fact be known to the Chippewyan and some entirely new vessels had just come in which were invariably used by white people, and they shortly became the rage, and the Indian family who could not serve up caribou soup in one of them was not counted amongst the elite of savages."

There was a great laugh. Truly Pierre had one on the crowd, and credit was at once given to him for the total cost of the goods, while the company annexed the fur. A slow smile spread over his face, and he sure was not so slow now, was he? We at last had all goods ready for Lac du Brochet, Pelic-Narrows and other posts, and one fine day away they went on the long and arduous journey of many portages and rapid rivers, not to mention Lac Brochet itself, which is said to be some two hundred and eighty miles long and full of islands. In fact one year in foggy weather the boat brigade having got off their direct course, which was marked by ledges from island to island, got lost for a week. The whole lake is still a terra incognita and though geologists have reported valuable mineral veins it is even at this late date unexplored, like so much of the great north country.

Factor Belanger, having decided to go east for the winter on a visit to his people, the Pas was made headquarters for the district, and Mr. Alex. Matheson (chief clerk) a very talented Scotchman, was placed in charge of the district, with myself as an assistant. Alas, all the districts accents (covering a country extending from Grand Rapids at the mouth of the Saskatchewan River to a point midway between Brochet and Churchill, roughly speaking some seven hundred miles in length) came to the Pas for my education, but these I have mentioned in a former article.

Mr. Matheson rose to be a chief factor in the service, his last charge being Fort William. His death occurred some years ago and was greatly lamented. He was very much beloved in the service by employees and Indians alike; in fact to know him was to love him, and personally, I owe him a deep debt of gratitude for helping to shape my future.

Disturbance In Egypt

Wires Between Cairo and Alexandria Have Been Cut.

London.—Telephone wires between Cairo and Alexandria, Egypt, have been cut, says a Central News despatch from Cairo. No news is coming from Alexandria, and disquieting rumors are current in Cairo, the despatch declares.

There was only desultory firing in the streets of Alexandria, reports received on the result of the recent riotous disturbances stated. Fifty persons, including 12 Europeans, were killed and nearly 200 persons wounded. Looters and skulkers were responsible for these disturbances.

American Company Buys B. C. Mines

Big Sum Has Been Paid For Silver Lead Mines.

Revelstoke, B.C.—The Waverly-Tangle Silver Lead Mines, situated at the head waters of Downie-Creek, have been purchased by the Walters Investment Company of Spokane, Washington. The exact terms of the deal are not disclosed, but it is known that \$20,000 has been paid already and that the Walters interests have spent another \$10,000 for development work, which includes the construction of eight miles of wagon road from Albert Canyon, B.C., to the property.

Coal Freight Rate Cut

Reduced 10 Per Cent. From Alberta Mines to Prairie Provinces.

Winnipeg.—A reduction of ten per cent. in the rates on coal from the Alberta mines to the three prairie provinces is granted by the Railway Commission, in a judgment according to an Ottawa dispatch to the Winnipeg Evening Free Press. The despatch says:

"The mine operators and the dealers alike co-operated in an application to the board for a 20 per cent. reduction. The board grants 10 per cent. pointing out that when there was a general increase in freight rates last fall coal did not figure to the same extent as other commodities and that with such a reduction the increase would not be more than five per cent. The order is effective June 1, and expires August 31."

Record Journey Made To Reace River

First Party Travelling By Boat Has Arrived.

Peace River, Alta.—The first party to reach Peace River by the water route from Prince George, B.C., this season, has arrived. During the course of their trip they were forced to cut through the ice on Summit Lake. A record was made as the journey was accomplished in seven canoeing days and 101 miles, was made down the Peace River in one day.

The party included C. J. Vernon MacKenzie, editor of MacLean's Magazine; H. Weston Taylor, of Philadelphia; and W. V. Chambers, of Bermuda, who are gathering magazine material.

Starving Soldier Found in Forest

Had Been In The Bush About A Week.

Toronto.—A discharged British soldier with \$56 in his pocket, though his clothes were tattered and filthy, was found in the forest near Woodbridge, Ont. His memory was gone. He was fastidious and ate ravenously when given food. It is thought he was in the bush about a week. He was brought to Toronto and handed over to the D.S.C.R. and was placed in the military hospital as a bed patient. According to the papers he carried his name is John McQuade and he is 29 years old.

U.S. Meat Imports

Washington.—The United States last year imported 160,000,000 pounds of meat of all kinds, the Department of Agriculture announced. About two-thirds of the imports are said to have been New Zealand lambs.

Turks Must Release British Prisoners

Constantinople.—The British naval officers here have sent a warship to Adalia to force the Turks to release eleven prisoners who were removed from the British steamer Palatina.

W. N. U. 1569

Moscow Near Starvation

No Hope Of Supply Of Flour From Caucasus.

Riga.—Moscow is near starvation, it is said in reports from that city, as peasants refuse to sell corn and are keeping it for seed. The decree issued by the Bolshevik Government restoring freedom to trade does not seem to have removed the menace of a food shortage. Government commissaries sent to villages to purchase corn are said to have returned empty-handed and the hope entertained by the Soviet Government that it might secure a supply of flour from Caucasus, has vanished.

Propose Reduced Fare For Veterans

Ontario G.W.V.A. Request Rate Of A Mile.

Brantford, Ont.—At the annual convention of the Ontario command G.W.V.A., a resolution was passed asking the Dominion Government to grant a cent a mile fare for unemployed veterans and their families on their way to employment with children under seven years of age.

Such provisions should be continued until the present economic stage was passed; the resolution suggested.

Likes British Rule

Bombay Citizen Says It Is Blessing To India.

Chicago.—The British administration has been a great blessing to the masses of India, Rustom Rustomjee, former editor of the Oriental Review, Bombay, India, told the members of the Commerce Association. He said he was not a "servile apologist" of the British Government of India, but belonged to the constitutional opposition faction until that party was captured by radicals.

Attempt To Wreck C. N. R. Express Fails

May Be Connection Between This and Bridge Dynamiting.

Montreal.—An unsuccessful attempt to wreck an express train on the Canadian National Railway, St. Jerome and Montfort subdivision, has been reported as the consequence of the line here. The attempt, which took place on Victoria-Day, was made at Morin Heights, and consisted of the placing of pieces of rail between the guard-rail and the main line at two places. The C.N.R. said there was no doubt the attempt had been deliberate. He could not say if there was any connection between this attempt and the dynamiting of the Cushing station on the same section of the railway.

Briand Has Faith In German Promises

Confident That Government Will Carry Out Its Obligations.

Paris.—The Chamber of Deputies endorsed the government policy on German reparations payments by the substantial majority of 419 against 17.

This followed a three-day's debate in which Premier Briand championed the government's attitude on the Silesian and other important foreign questions.

Premier Briand reiterated his confidence that the German Government would carry out its obligations. He declared again that France's policy was one of moderation and justice.

Crank Dies By Fasting

Selma, Iowa.—Walter Oliver, son of a wealthy farmer, died on the sixth day of a self-imposed fast.

Oliver was a conscientious objector and was sent to the Federal penitentiary when he refused to don a uniform. Upon his return to his home here he became a recluse and later entered into a fast, declaring, "I will not take food until the Lord blesses me."

Lady Tilley Dies

Toronto.—Word was received here of the death at St. John, N.B., of Lady Tilley, widow of the late Sir S. L. Tilley, who was successively Premier of New Brunswick, Finance Minister of Canada and Lieutenant-Governor of New Brunswick.

Our Next Governor-General

Montreal.—A London cable to the Star says the Evening News states the Duke of Northumberland may consent to succeed the Duke of Devonshire as Governor-General of Canada.

German Sergeant Will Serve Ten Months For Ill-Treating British

Ex-Emperor Tried To Sell Property

Has Made Himself Unpopular With People of Doorn.

Doorn, Holland.—The former German Emperor has made himself extremely unpopular in the eyes of the people of Doorn by an attempt to sell as building ground a strip of woods belonging to his estate, but outside his fences and therefore useless to him.

The Dutch Government on learning his intentions to sell the woodland in small allotments, in order to add to his income, prohibited the felling of the trees in that place, while the Doorn municipality bought at auction the woodland in question thus preserving it for the public in its natural state.

Nonagenarian Takes Flight In Airship

Famous Pioneer Visited Victoria On Aerial Mail Flying Boat.

Victoria, B.C.—Effecting a contrast that is perhaps the most wonderful feature of his life, Ezra M. Meeker, famous pioneer of the old Oregon trail, visited Victoria from Seattle on a United States aerial mail flying boat. In his 91st year, Mr. Meeker culminated a review of transit, having travelled in every vehicle of the west from the days of the prairie schooner, bullock drawn, to the up-to-date flying boat.

Swiss Post Tax Fails

Doubling of Rates Proved a Financial Failure.

Geneva.—The doubling of postal rates by Switzerland as a revenue producing tax has proved a financial failure, according to official statistics. The receipts during the first three months of the present year decreased 700,000 francs, as compared with the corresponding period of last year, when the rates were normal.

French Demobilize Married Men

Paris.—The Government on a favorable report from the army staff in the Rhineland, ordered demobilization of the married men and supporters of families from class of 1919. The remaining forces are considered by the Government to be adequate for all contingencies likely to arise.

Removes Colonel's Name

London.—The removal of a colonel's name from the Order of the British Empire, has inspired the state in the press that only five decorations have been made from the Order out of 25,000 appointments.

Many Injured In Fire Which Destroys Dublin Custom House

Seven Civilians and One Auxiliary Killed In Catastrophe Alleged to be Work of Sinn Fein.

Dublin.—The Dublin Customs House is in ruins and all the most important documents of the Government relating to Ireland together with papers and records, the value of which cannot be estimated, have been destroyed. This Dublin Castle officially announces, is the work of Sinn Fein forces, which made the most formidable attack against Government property that has been engineered since the present rebellion was started.

London.—The Irish office has issued the following official report on the Customs House fire at Dublin: "Three tenders carrying auxiliary cadets and accompanied by an armed car approached the Dublin Customs House shortly after 1 o'clock this afternoon. As they approached the building, a number of bombs were thrown at the tenders from the railway bridge, while revolver fire was opened on them from the windows of the Customs House, which was occupied by a large force of Sinn Feiners."

The cadets dismounted under heavy fire and surrounded the Customs House which was seen to be burning. Fires from the auxiliaries and the machine gun on the armored car was poured into the windows of the Customs House from which the rebels replied vigorously and a series of desperate conflicts followed between the crown forces and seven or

eight parties of rebels who rushed from different doors of the building, making dashes and firing as they ran. The first party to emerge consisted of three men, one of whom was killed and the other two wounded."

"By this time smoke and flames were pouring from the building and the official staff, including many women, who had been held prisoners by the rebels, came flocking out with hands above their heads, waving white handkerchiefs. While the staff was making its exit, the rebels made a last sortie, this party consisting of six men, only one of whom escaped, the rest being killed or wounded."

"Some of the auxiliaries then stormed the building, where many of the rebels surrendered. Some of them were found to be saturated with petrol and several were probably burned to death before the crown forces entered."

"The firemen were held up at the fire station by rebels so that the fire engines did not arrive until 2 o'clock by which time the fire had taken hold of the entire building. At the conclusion of the fighting, dead and wounded rebels lay about on all sides of the building while the ground was strewn with broken glass and empty cartridge cases."

Patrol Boat Makes Capture

Japanese Schooner Caught Sealing In Canadian Waters.

Prince Rupert.—A Japanese schooner has been caught sealing in Canadian waters and engaged in fight by the steamer Malaspina, according to a report from the Canadian coast guard. The schooner, which left this port southbound, is said to have overhauled a Japanese schooner sealing. The report says that the Malaspina arrested the crew, captured 150 skins and then destroyed the schooner.

Vancouver.—The Malaspina is the Canadian Government fisheries patrol boat. When she left Vancouver for the North, Major J. A. Motherwell, federal inspector of fisheries, was aboard.

Riel's Brother Ill

Winnipeg.—Joseph Riel, younger brother of Louis Riel, famed for his prominent part in the stirring events of 1869-70 in Manitoba is very ill at his home in St. Vital, near here. He is now 64 years old.

Restrictions On Orientals Increased

Entry of Chinese to Canada Made More Difficult.

Ottawa.—The bill to amend the Chinese Immigration Act was given a final reading without debate in the House of Commons. The bill increases restrictions on the entry of Chinese to Canada. Its main provision is one which abolishes certificates of identification for Chinese merchants and requires them to the satisfaction of the Canadian Controller of Immigration.

C.N. Station Dynamited

Montreal.—Much damage was caused at Cushing on the Canadian National Railway about 15 miles north of Carleton, by the dynamiting of the station. It is believed that the outrage was an act of spite owing to the removal of the station facilities from one point to another. There were no persons on the premises at the time. No arrests have yet been made.

Will Visit Indians In North

H. A. Conroy Leaving Soon To Pay Treaty Money.

Edmonton.—On his way to Fort Providence and beyond to pay treaty money and to visit the natives of the north, H. A. Conroy, of the Department of Indian Affairs, is in Edmonton making preparations for his long journey into the north.

The Mackenzie River Indians will come in for treaty this year, according to Mr. Conroy, and the fact that treaty has never been paid them in the past attracts considerable interest to the expedition.

To Dodge Narrows At Vancouver

Vancouver, B.C.—The Federal Government will assist with the dredging of the first narrows at Vancouver to make the passage into the harbor safe for deep sea craft of heavy draft. A telegram from Hon. F. B. McCurdy, minister of public works at Ottawa, was read at a luncheon of the Vancouver Shipping Bureau, promising aid in the work.

A Woman's Answer

Willie couldn't understand the theory of evolution, so he questioned his mother.
"Mamma, am I descended from a monkey?"
"I don't know, son," she replied. "I never knew any of your father's people."

Printers' Lingo

"William, put General Washington in the galley, and then finish the murder of the girl, on started yesterday. Set up the ruins of Herodotus and distribute the mailboxes. You need not finish that runaway match but have the high water in the paper this week. Put a new head to General Grant and lock up Jeff Davis. Slide the old dead matter into hell and let that pit alone until after dinner. You can put the ladies' fair to press, and then go to the devil and put him to work on Daseon Fazy's article on 'Eternal Punishment.'"

5000 Facts About Canada

The annual publication, "5000 Facts about Canada" is a gold mine of information about the Dominion that no Canadian can afford to be without, and its popularity is steadily growing. The 1921 edition is now out and may be had from leading newsdealers or from the Canadian Facts Publishing Co., 588-589, Huron Street, Toronto, for 33c per copy. Its compiler, Frank Wright, is rendering a public service in thus making available, in accessible and condensed form, under 50 chapter headings, ranging from Agriculture to the Yukon, the story of Canada to a nutshell. It is a revelation of the wonderful wealth and growth of the country, and is, as well as a fine advertisement of the Dominion, Government, Banks, Boards of Trade and big financial and industrial concerns use hundreds of copies. It is moreover an excellent booklet to send to friends abroad as a unique cyclopaedia of Canada.

A giant air cruiser flew from Cuba to Detroit.

One paper says that Pope Benedict sent Cardinal Logue 200,000 lire for his 60th birthday.

That warbled like Caruso:
A neighbor swung a baseball bat
—Now Thomas doesn't do so.

"Some has jobs and wins work,
And some would work that want it;
But we has jobs and we will work,
Our common sense be thankit."

The marriage of John Herby, of
Bellevue, to Meri Figuri, of New
York City, was solemnized at
Nuptial Mass by the Rev. F. H. Es-
bury at St. Anne's church on
Monday.

Cowley Happenings

Mrs. Lynch, of Beaver Mines, was a
Wednesday visitor to town.

Mrs. H. W. Elton has returned after
spending the winter in Calgary.

Percy Biddell, of Midnapore, is at
present a Cowley business visitor.

The Ladies Aid will meet at the home
of Mrs. Harvey Bouthillier on Thursday.

Mr. Vianthier has moved into the
house formerly occupied by Mrs. Olin.
Miss Edith Baines, of Lethbridge, is
visiting relatives and friends here for the
present.

Mr. and Mrs. Roland Easterbrook
and little daughter Elva have gone to
Wrentham for a visit.

The provincial fire inspector, was a
Cowley visitor on Wednesday and or-
dered improvements in several buildings.

After spending several weeks visit-
ing with Mr. and Mrs. A. Swart, Mrs. Gold-
ing, of Lethbridge, has returned home.

Mr. and Mrs. Swart and children
have moved into the house formerly
occupied by D. H. Melvor and family.

On Friday last the junior baseball
team went to Pincher Creek to play a
game with the juniors there. They scored
six to five in favor of Pincher Creek.

Although an average amount of mois-
ture has fallen, the crops would be bene-
fited by a heavy rain. Isolated reports
of cotton damage are being received.
Seeding is practically completed.

Music examinations will be held here
some time during the latter part of June.
Last year the music pupils were forced
to go to Pincher Creek for their exami-
nations. There will be around twenty
students lined up for examination.

The ball game between Blairmore
and Cowley last evening was called after
the fifth inning, owing to rain, the score
standing 3-1 in favor of Cowley.

The home team secured the lead in the
second inning, making three runs and
going out with bases full. It was the
best game played here so far in the
league series.

Rev. Moore held service in Tennessee
schoolhouse on Sunday at 11 a. m., and
will, we understand, conduct services
there every two weeks for some time.
He also holds services here every Sun-
day evening at 7.30. Sunday school is
held here every Sunday morning at 11
o'clock. The attendance is the largest
now to our knowledge.

We notice by the Lethbridge
Herald that Mr. and Mrs. Berg
Saug. We wonder why, for we
understand that Lethbridge was
absolutely dry, and it takes the
"see drag of the crater" to make
people sing as you could notice.

Duncan MacDonald, superintend-
ent of mine rescue work and first
aid for the province, under the
Workmen's Compensation Board,
has been in the Pass the past week
or more making preliminary ar-
rangements in connection with the
July 1st competitions. Supt. Mc-
Donald will be in this district
most of the time until July 1st.

The local fire brigade was called
out this afternoon, a slight blaze
having been discovered in a build-
ing in the west townsite.

Barnes' four ring circus will be
at Lethbridge on Monday next.

Mrs. L. H. Putnam left for
Eastern Canada on Thursday
night last.

We regret that Colecan Hap-
penings were omitted from our
issue of last week.

Everything has gone down ex-
cept paper and envelopes. They
are stationary.

Some women kiss their pet dogs
in preference to their husbands,
and so some men are born lucky.

The Pincher Creek town council
unanimously voted in favor of re-
voking license to Chautauqua for
1921.

Pincher Creek has asked the
Hull River Falls Electric Power
Company to extend their service
to that town.

A pretty woman with brains
usually sends some man to the
devil. If she hasn't brains she
goes there herself.

Sergt. Tomlinson, formerly con-
nected with the R.C.M.P. detach-
ment at Blairmore, is now station-
ed at Waterton Lakes.

Fitzsimmons & Palmer's aero-
plane "Okla Applia" journeyed up
through The Pass on Friday morn-
ing as far as Cross' Nest.

Mrs. H. C. Clements and her
two daughters, of Pincher Creek,
were guests of Mr. and Mrs. J. E.
Upton for a few days last week.

The dance billed to be held at
the Oddfellows' hall, Bellevue, on
Friday last, had to be postponed to
June 10th.

The case against Emperor Pic-
cariello, which was to have been
heard on Friday last before Mr.
Justice Gresham, was further ad-
journed to tomorrow, the 3rd of
June.

"Ike" Longhead returned on
Friday last from a visit to relatives
in Detroit and other parts of
Michigan state. He is looking
well after the first holiday taken
in many years. We understand
that Mr. Longhead will resign the
wardenship of Waterton Park.

The Blairmore football team
journeyed to Michel on Sunday
and were defeated by a score of 4
to 0. And now the good people of
this corner of fair and spotless
Alberta will have it that success
would have been ours had the
game been played on other than
Sunday.

There was a very large attend-
ance at the regular meeting of
Bellevue I. O. O. F. lodge on Mon-
day night last, when the initiatory
degree was conferred on three can-
didates. Bellevue Lodge is estab-
lishing a provincial record, hav-
ing since January the last initiated
about 22 candidates, conferring
degrees at every meeting for the
term and prospects are bright that
such progress will continue for the
balance of this year.

When Does Bronchial Trouble Begin To Get Serious?

"First it was a little throat tickle, then a cough which grows severe. This neglected condition is down the lungs, and it's mighty hard to treat. To treat throat trouble, use Catarrhose. It heals the sore spots, allays irritation, eases the cough, makes breathing regular, clears out the phlegm and treats the nostrils from crusts and accumulations. You can prevent colds, and keep free from Catarrh and bronchial trouble by frequently using Catarrhose—thousands prove this every day. Sold everywhere, two months treatment \$1.00, medium size, 50c; small size, 25c."

Enter Mother-in-Law

By Ella Randall Pearce

The letter was addressed to Mrs. Franklin Kirby and its contents enjoin secrecy. "I want to surprise Franklin," wrote that young man's mother.

"And you've surprised Franklin's wife, too." This thought was slightly tinged with bitterness, for Vera had her pre-conceived notions of mother-in-law, and her first feeling was resentment that her happy little home was so soon to be invaded by the arch-enemy of domestic tranquility.

"Franklin's mother—of course, I expected to meet her some day. And of course, I'll do my best to get on with her. But now—Vera bent above the written page again.

"I'm coming for a visit, but if it suits me I may stay." Vera gave a gasp as she read. "The idea! Cool, I call that. Coming for a visit—and may stay. Does that mean forever? Oh, well, I'll have to hang out the welcome banners, for Franklin's sake.

Vera kept her secret during the next few days; but it rankled within her heart. You couldn't tell her anything about mother-in-law. She knew what they were like, even the best of them.

They never thought a woman quite good enough for their precious son—and Franklin was an only child! And they never quite approved the wife's housekeeping methods, especially her cooking. And they always considered the other woman a little extravagant, to say the least; and a little careless of Hubby's comfort; and a little too fond of worldly pleasures.

"Oh, I'm sure to come in for criticism and advice," reflected Vera. "And Franklin thinks me quite satisfactory as I am. Now he's going to have my faults pointed out. Now he's going to learn that the woman he married isn't and never had not been as good as the mother he forsake."

Vera went about her daily tasks, conjuring up disturbing visions of what the advent of the elder Mrs. Kirby might mean. She had known Franklin but a short time before they were married; and she had not met a single member of his family. And there had been much for her to learn in the way of domestic arts and sciences.

"And now I'll be told how far from perfect I am!" Vera shook her head as she went about the task of setting the guest room and ordering the maid to bring sewing room, and now she would have to give up her needle work for the present.

"And, if it suits her, she'll stay," moaned Vera. "I'd like to ask Franklin some questions about his mother, but I don't dare. He'd suspect. If only I knew more about her. First impressions are so important. Well, the scene is ready, the time is come, enter mother-in-law!"

And then a taxi whirled up to the door, and the stranger guest whirled into the Kirby's living room and dropped all her bundles to embrace the waiting hostess.

"So this is Vera, little Vera. Why, you're head and shoulders above me," ran a laughing, silver-toned voice. "I'm going to take a good look at you when I get a chance. Oh, my roses—I'm dropping them all over the floor. They're for Franklin."

I've brought some bon-bons for you, my dear."

The newcomer threw off her wraps and looked eagerly around.

"Franklin's home, you know how I've wanted to see it! Can't I look about now, every nook and corner?" She slipped a hand chiddly into Vera's clasp. "You modern young housewives frighten me," she rippled. "You're so wise, so efficient, I never did learn to keep house."

Then she laughed merrily. "But I kept a cheerful home, and that's something, I made Franklin's father happy. And I made Frank happy as long as he was with me. And now you're making him happy. I know by his letters."

She looked long and lovingly at Vera, and tenderly patted the hand she held. "Isn't Franklin wonderful?" she said with enthusiasm. "Isn't he worth doing things for?"

They stepped into the tiny blue and white kitchen. Oh, just like a toy house," exclaimed the newcomer. "I believe I could work here and enjoy it. But I never did care for kitchen, and cooking seems a mysterious art. I always had someone else do the cooking, and I gave my attention to the service end. I can pour tea to perfection."

Vera watched her in bewilderment as she went from room to room, talking interestingly of many things. She was an exquisite figure, slender and light-footed, with silver blond hair fashionably arranged; bright blue eyes and a fresh pink and white complexion. Her small nose upturned a trifle and there was a dimple in her cheek. She had an air of permanent youth. The sort of person who never grows up, thought Vera. Yet there was wisdom and shrewdness, too, in her bright eyes, and undercurrent in her silvery tones that twanged at one's heart strings now and then.

"Such a dear sweet home. I'm going to be happy here while I stay. And I'm going to do all I can to make my visit a happy memory for you, you two dear children."

Children! Vera already felt old and sober beside this light-voiced, light-footed stranger. The elder Mrs. Kirby tilted her head charmingly, with a sparkle of mischief in her glance.

"Did my letter worry you? I always announce my visit in that way, that if I am suited I shall stay. But I never stay. Her dimple came into play. "I am a wanderer. When Franklin's father was living, we traveled together and so I got into easy ways. I have friends several where. So I come and visit, but I never stay."

Vera watched her vivacious guest as she arranged the roses she had brought in a cut-glass vase. A sudden tenderness crept into her heart. A thrilling longing, almost maternal in its nature, to draw that gay, roving, childish spirit within the sweet, protective circles of home life.

She went swiftly to the other woman's side and laid a caressing hand on her shoulder. "I want you to remember, Mother Kirby," she said, and her voice quivered with newly awakened emotion. "Wherever you go, this is your home. Always. With Franklin and me. And always we shall want you to come and stay as long as you will."

Wealth in Dairying

Billion Is Invested In Livestock By The Canadian People

There is no less than \$1,076,000,000 invested in livestock in this country; there is also \$120,000,000 invested in poultry. Dr. S. F. Tolinie, Federal Minister of Agriculture, told the Kiwanis Club at Ottawa, Canada is now the largest exporter of cheese in the world, the minister declared. Dr. Tolinie also expressed the hope that the investigations of the commission now sitting in Great Britain would result in the embargo against Canadian cattle being removed.

Good Price For Wool Clip. About \$400,000 was received by Southern Alberta flock owners for last year's wool clip. The total consignment through the Southern Alberta Wool Growers' Association amounted to 1,465,244 pounds, for which an average price of 28.33 cents net was obtained. This is considered a very favorable figure in view of the state of the wool market.

Fruit Pulp New Shipment. Fruit pulp from British Columbia to the United Kingdom is a new feature in shipments outbound from this port. On the S.S. "Morjick," which left Vancouver recently, there were two tons of fruit pulp as a sample shipment.

Tallest Man Dies. Bernard Coyne, 24, said to be the tallest man in the world, is dead, at his home near Sioux City. Coyne stood 8 feet 1 inch and weighed 300 pounds. He wore size 24 shoes.

Growth Of Education In Saskatchewan

Has Kept Pace With The Increase In Population.

Despite the rapid growth of settlement in the prairie provinces, the education of the younger generation has kept pace with the increase in population. Last province has its Department of Education whose energies have been devoted to establishing schools in every settlement, so that every child throughout Western Canada might have the advantages of a public school. Just how far this ideal has been accomplished may be judged from the following statistics relating to the province of Saskatchewan:

On September 1st, 1905, when the province was formed, there were 894 school districts, of which 10 were separate schools. Since then the organization of school districts has been so rapid that at one time a new school was erected for every day in the year, including Sundays and holidays, and at present there are more than 4,300 school districts, of which 20 are separate schools. In 1905 there were no secondary or high schools, though a few of the elementary schools were doing high school work, but now there are 24 high schools and a university, so that it is possible for a student to receive a public, a high school and a university education without having to leave his own province.

A Sportsman's Paradise

Saskatchewan One of Best Big Game Countries on Continent.

The value of Saskatchewan's game resources is not generally known despite the fact that this province is one of the best big game countries on the continent.

Last season alone a total of 2,170 big game animals were secured by licensed hunters. This bag includes 80 caribou, 870 deer and 1,200 moose.

Were the 1,200 head of moose secured placed on the market, their meat alone would fetch a very considerable sum. These animals would cash in on an average about 400 pounds, which at the low rate of fifty cents a pound would amount to \$240,000.

North of Prince Albert is the caribou country, and while moose have been secured all across the province from Onion Lake eastward, they are especially plentiful from Crooked River east to the Manitoba boundary. In this district as many as sixteen moose have been killed in one township.

Reason Germans Hold The Ruhr District

Industry of Country Depends Entirely on Coal There.

When speaking of the recent proposal to occupy the Ruhr district Premier Lloyd George said: "I must first point out exactly what the occupation of the Ruhr would mean. Before the war the output of coal in the Ruhr Valley was the largest production obtained in any single coal field in the world. It was considerably over one hundred million tons. It contains every quality of coal for every conceivable purpose for which coal can be used. Two-thirds of the whole of the German iron and steel production is in the Ruhr Valley. The importance of the region may be gauged by the fact that last year 25,000 railway trucks of fifteen tons were loaded every day in the Ruhr, double the number of goods trucks handled daily by the Nord Railway in the great industrial valley of France. During the war the Ruhr Valley was Germany's great source for guns, for shells, for gas, and the industrial development of South Germany depends almost entirely upon the coal of the Ruhr. With the Ruhr gone, industrial Germany withers."

Foch Accepts New Appointment.

Marshal Foch, the generalissimo of the Allied armies during the great war, has just accepted the title of honorary colonel of the 22nd Regiment at the Quebec Citadel. His appointment was sanctioned by His Majesty King George and approved by the British Government as well as by Canadian military authorities.

"Sengite" Is New Explosive.

South Africa is now manufacturing a new material to take the place of nitro-glycerine explosives. It has been tested in mines and is regarded as both strong and safe. It is called sengite, the first syllable being derived from the initial letters of the words, "substitute explosive, no glycerine."

A sign has been discovered in an old tailor shop in Pompeii reading: "Glasses ironed in your toga while you wait."

CUTICURA HEALED PIMPLES ON FACE

Also Itchy Scalp. Hair Fell Out. Face Disfigured.

"My head began to itch and there were scales on my scalp. My hair fell out badly when combed and it became very dry and thin. I also had pimples and blackheads all over my face, nose and ears. I also had large, red, and caused me to scratch and irritate them, and my face was disfigured."

"This trouble lasted about two months and I began using Cuticura Soap and Ointment. After I had used two cakes of Soap and two boxes of Ointment I was completely healed. (Signed) Miss Zona Jackson, R. 3, Goldendale, Wash."

Improve your skin by daily use of Cuticura Soap and Ointment. Get it at any drug store. Write for free literature. Cuticura, 100 N. 3rd St., W. B. Warner, California. Send stamps without charge.

South Africa Behind In Caring For Veterans

Canadian Delegates Return From Conference With Marshal Haig.

Marshal Haig has returned to England from South Africa, whither he had gone to preside at the empire-conference of Great War Veterans. He said the British Empire Services League for ex-service men throughout the empire gave him a hearty welcome.

The two Canadian delegates to the Cape Town conference, R. B. Maxwell, of Winnipeg, Dominion president of the Great War Veterans' Association, and J. Morgan, of Toronto, representing the Army and Navy Veterans' Association, travelled back with England with Earl Haig.

Mr. Maxwell declared that South Africa was much behind the other dominions in caring for ex-service men.

Miller's Worm Powders will eradicate the worm evil that bears so heavily on children and is believed to cause many fatalities. They are an acceptable medicine to children and can be fully relied upon to clear the food channels thoroughly of these destructive parasites and restore the inflamed and painful surfaces to healthiness. They are an excellent remedy for these evils.

More Gypsum in Canada

Large Reserve Available If Market Can Be Found.

In drilling to test the commercial possibilities of salt beds in the Fort McMurray district of the Athabasca River country, recently, it was found that there are nearly 100 feet of anhydrite and gypsum of commercial quality at depths ranging from 500 to 600 feet, and if a market can be found for it there is a large reserve available for development. Gypsum is one of the important non-metallic minerals of Canada, and is found in several of the provinces but was not known to exist in the far north. The total production of this mineral in Canada in 1920 was valued at \$1,676,595, but the value of the deposits of the ore must run into many millions.

Refuse To Change Wheat Grades

Ruling Is a Great Disappointment To American Farmers.

United States wheat producers of the border country, and especially throughout the northwest, are keenly disappointed over a ruling just announced by Secretary of Agriculture Wallace refusing to change the federal grades on spring wheat, except in one small particular. The decision is regarded as a victory for millers, though Secretary Wallace promises a thorough investigation prior to marketing season a year hence. The Canadian grain trade is much interested in the situation.

The Comet's Tail.

Exactly what comets' tail are made of is one of the unsolved problems of astronomy, but the theory most generally accepted is that they are formed from particles of the comet itself, forced away by the pressure of sunlight, as they apparently increase in size and activity the nearer the comet gets to the sun.

Where Farming Pays.

Starting out to work a farm with a mortgage tacked on it for more than the farm was worth was the prospect of Sam Chute, of Berwick, Nova Scotia, 25 years ago. Last year he sold 20,000 barrels of his own apples, and about 60,000 quarts of strawberries. The old mortgage is gone and forgotten, except as a memento.

The immigration restriction bill has been signed by President Harding.

"Your Teeth"

By Rea Proctor McGee, M.D., D.D.S., Editor of Oral Hygiene.

IN LATER YEARS.

Copyright, 1921, by Rea Proctor McGee.

Time lies in wait for every man and will get him sooner or later if something else doesn't. When time begins to get a man the question is, how well is he prepared to resist the downward drag of years? We know this drag is sure, but we all hope to make it slow. It must be terribly disconcerting for a man to suddenly have the skids knocked out from under him and to miss the pleasure of the long, quiet twilight of life.

Not that any of us are yearning for that "quiet twilight" business, but it is the best we will have, when it comes, so let's make the most of it. It is a fact that men and women past fifty years of age, who have perfect teeth, are remarkably free from chronic disease. Very few people who are past fifty years and who show advanced pyorrhea and decay of the teeth have anything like normal health.

There are people, seventy to ninety who have nearly perfect teeth, and their splendid health leads us to believe that there is a definite connection, in old age, between good teeth and good health.

Many old people are vigorous who have well-fitted artificial teeth, much healthier in fact than people of the same age who have advanced pyorrhea, or a number of abscessed roots, or both, in their mouths.

Good artificial teeth are far preferable to diseased natural teeth. Artificial teeth are made from porcelain. A great deal of careful study has been put upon the shapes, colors, types and contours of porcelain teeth. The making and fitting of plates to the mouth, and the arrangement of the teeth, both from the artistic and from the mechanical aspect, has been reduced almost to an exact science in America.

If we keep our machinery in good repair as we go, we will have no regrets when the time comes to reduce speed and jog along quietly to the end of the road.

Good Outlook For Lloyd George. Last year when Mr. Lloyd George was in Paris, Mme. Sarah Bernhardt paid him a visit, and subsequently she came to luncheon with him, being borne up to the dining room in a stretcher chair.

The conversation was mainly translated, as neither spoke the language of the other. But from the first Mr. Lloyd George was won over by "La Divine Sarah" personally.

The interview ended thus: "I wish I could talk English," said Mme. Bernhardt.

"Ah! I wish I could talk French," replied the Prime Minister.

"Well, some day," she said, "we shall meet in heaven, and then no interpreters will be required."

Faithful to the End.

A story is going the rounds about a man in St. Louis who wrote a will in which he named six bankers to be his pall-bearers. "They have carried me for twenty years," he explained, "and they might as well finish the job."—Toronto Star.

LETTER FROM MRS. WAKELIN

Tells Remarkable Story of Sickness and Recovery.

Toronto, Ont.—"I suffered greatly from weakness, seemed to be tired all the time, and had no ambition to do anything except go to sleep. My nerves were in bad shape. I could not sleep at night, and then came a breakdown. I read of Lydia E. Pinkham's Vegetable Compound in the newspapers and several of my friends advised me to use it, and it surely put new life into me. Now I am quite able to do all my own work, and I would strongly advise every suffering woman to give Lydia E. Pinkham's Vegetable Compound a trial."—Mrs. CHARLES WAKELIN, 272 Christie St., Toronto, Ont.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as that above—they tell the truth, else they could not have been obtained for love or money. This medicine is no stranger—it has stood the test for more than forty years.

If there are any complications you do not understand write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.

The Thrift of the French

People Have Worked and Saved Money Since the Armistice.

France was drastically torn by the war, terribly depleted financially by its expense. But what do we see now? Two years and a half after the armistice her people are able to invest 10,000,000,000 francs a year in bonds! There's a lesson in thrift, in saving, in resources, for the whole world! It we had anything to compare with it in America our prosperity would be the marvel of all ages, our money power almost beyond computation. But France has not been spending billions for luxury since peace came to her. She's been saving her soul while we have enjoyed scattering our dollars. And they work in France—Chicago Journal of Commerce.

Sells Bonds at Good Price.

Three million dollars worth of five or six per cent. bonds were disposed of to the British American Bond Corporation, Victoria, B.C., on behalf of a syndicate of Chicago, Seattle and Victoria Bond Houses, at 100.01, proceeds of which will be used chiefly for work on the Pacific Great Eastern Railway in British Columbia.

Love never recognizes hardships in its way.

World Happenings Briefly Told

The Canard steamship line has reopened its office in Berlin.

Grasshoppers are reported to be hatched out in the Hartney district and steps are being taken to combat the pest.

It is unofficially stated that at a British naval conference at Singapore, plans were formulated for combined action by the East Indian, China and Australian squadrons in the event of war.

The port zone at Buenos Aires, which has been closed since late in March by the boycott of the Port Laborers' Union, has been re-opened. The union laborers returned to work but only ten of the huge fleet of tied up ships accepted their services.

The body of eight-year-old Lilly Manning, who fell into a sewer on St. James street, Montreal, on March 10 last, was recovered in the St. Lawrence River, near the Montreal City Street, Hochelaga.

Adam Philipchuk, shoemaker, charged with stealing 700 bushels of wheat, and Mike Grigorev, farmer, charged with concealing \$5,000 of assets, were arrested at Vernon, Calif., at the request of the British Consul-General and are held for return to Perdue, Sask.

Hon. Geo. H. Macdonald, provincial minister of agriculture, and John Bracken, of Manitoba Agricultural College, will go to Ottawa early in June to discuss the matter of federal aid to the development of agriculture in the province with the Dominion Cabinet.

Youth and Age

THERE is no time in woman's life that she cannot benefit by the use of Dr. Chase's Nerve Food in order to keep up the supply of pure, rich blood and to ensure a healthful condition of the nervous system.

Headaches, neuritis, sleeplessness, nervous spells, irritability, tired, worn-out feeling, soon disappear when the vigor and energy of the nerves are restored by the use of this great restorative.

30 cents a box, 5 for \$2.50. All dealers, or S. H. Chase & Co., Ltd., Toronto.

Dr. Chase's Nerve Food

W. N. U. 1370

Scheme To Drain Alberta Lakes

Would Mean Thousands of Acres Reclaimed For Cultivation.

Twenty-three thousand acres may be added to the cultivable area in the Morinville district, east of Edmonton, by the draining of the Manawan Lake. This is the largest of the proposed drainage schemes in Central Alberta in connection with which reconnaissance surveys are to be undertaken this summer and autumn.

Surveys are also being undertaken at Chip Lake which covers about 19,000 acres and at Lanes Lake, covering about three thousand acres in an excellent mixed farming district of Central Alberta.

If the projects are found to be practicable and to warrant reclamation operations being undertaken ditching schemes will probably be put in hand next year.

Wasp First Paper Maker.

The first paper maker was the wasp, which always chews its nest with a thin film of paper.

Separation, But No Alimony

A peaceful, quiet separation, no damage done, everybody happy again—that's the situation when you divorce your corn. Try Putnam's Corn Extractor. Acts like magic; no pain, no failure, success every time. Refuse a substitute for "Putnam's," 25c everywhere.

Butter Once Regarded As Medicine.

In the early Christian era butter was regarded merely as a medicine, while among the Romans the use of butter marked the distinguishing mark between the rich and the poor.

Holloway's Corn Remover takes the corn out by the roots. Try it and prove it.

If a woman hasn't anything else to do, she borrows a recipe from her neighbor—and attempts to make a cake.

The Oil of Power—it is not claimed for Dr. Thomas' Electric Oil that it will cure every ill, but its uses are so various that it may be looked upon as a general pain killer. It has achieved that greatness for itself and its excellence is known to all who have tested its virtues and least by experience.

Keep Minard's Liniment in the house. In the open sea. When angry it raises its narrow body out of the water to a height of four or five feet.

Send Ontario Corn to Germany.

Sending seed corn from Blenheim to Germany is something new, yet it is being done. T. C. Warwick, long recognized as an authority on seed corn in Ontario, and who for a number of years has been shipping extensively to Eastern Ontario, to points in the United States and elsewhere, has received an order for seed corn from a large firm in Danzig, Germany, for experimental purposes. The corn was carefully prepared and forwarded.

TOBACCO HEART

Every Smoker Read This

Tobacco does not seem to affect all alike. Many men enjoy their smoke, live to a good old age, and apparently suffer no ill-effects from the use of the weed.

There are others though, on whose heart and nervous system tobacco produces the most serious results. It causes palpitation, pain in the heart, and irregularity of its beat, makes the hands tremble, sets the nerves on edge, and causes shortness of breath and loss of sleep.

To counteract this demoralizing influence on the heart and nerves, there is no remedy to equal Milburn's Heart and Nerve Pills.

They make the heart beat strong and steady, restore tone and vigor to the nerves, and remove all the evil results caused by the tobacco.

Mr. D. McKillop, Coalville, N.S., writes: "I was using too much tobacco, and got so I could not sleep at night, my hands used to tremble something awful, and I suffered terrible from pains in my heart. I told a friend about it, and he advised me to get your Milburn's Heart and Nerve Pills. I took two boxes and they gave great satisfaction."

Price 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

An American silver dollar was recently found in a can of pickled tongue opened in Wales.

Nature is too busy to turn out handsome men.

Girl Flyer Breaks Record

Looped the Loop 199 Times in Eighty Minutes.

Miss Laura Brownell, a slim young woman of 23, who looks as if she could play a good game of croquet, climbed into the rear cockpit of a big Curtiss standard biplane at Curtis Field, Garden City, soared up to 3,000 feet and started looping the loop, an hour and twenty minutes later, she had shattered her own world's record for a woman pilot by more than one hundred. In the eighty minutes she looped 199 times.

School Morals

Depend Almost Entirely on Character Of Town Or City.

As long as the responsible leaders in a city not only tolerate but contribute to a generally compromising moral tone, the schools are certain to manifest the same tendency. The child is supposed to emerge from the home equipped with the best standards of the home, but in the schools, particularly in the high schools, the atmosphere is the sum of the homes, and the child seeks the level thus determined. It all comes back to the character of the town, and this to a large extent is determined by the attitude of public officials, particularly those charged with law enforcement. It is at the polls that a town bares its soul, and the revelation will be encouraging when the citizen boldly votes his conscience.—Indianapolis News.

The Saddest Faces

Said to be of Men Who Have Stopped Working.

If any man of 60 or 70 who has acquired a competence thinks of retirement without having planned a capital campaign for his later years let him ride up Riverside Drive and look at the men who retired just because they thought it was time to quit. They sit on the benches in the sunshine or ride back and forth in their cars. Their faces are saddest of the world. They might be amateur gardeners, book collectors, almoners, workers for civil betterment, fly casters, chess fiends or amateur chess makers. Or they might be happy back at the factory. But they are nothing but waiters on the inevitable.—New York Herald.

Should Have Been a Scot

Scottishman Thought Shakespeare Too Intelligent to Be English.

He was an enthusiastic Scot, and he was arguing with an Englishman over the merits of their respective countries. Military powers, brilliance in invention, engineering, travel and enterprise-building had all been passed in review, and the Scot had won hands down. Eventually the Englishman sought refuge in literature.

"Well, take 'em literature," interrupted the Scot, "there's Robbie Burns, Walter Scott, Stevenson, Hugh Miller, Barrie—that's just mentioning a few at random—" Scot?"

"Yes, yes, but wait a bit," protested the Englishman. "There is one greater than all these put together—William Shakespeare. You wouldn't suggest he was a Scotsman, would you?"

"Well," thoughtfully responded the Scot, "I wadna precisely say that. But the man's intelligence wad almost warrant the inference."

A Meal of Cut Worms.

C. A. Nash, of Toronto, records an experiment with the robin as a cut worm destroyer. One young robin, kept in confinement, ate 165 cut worms in a day. Had he been content to find his own food he would probably have varied it somewhat, as he would not likely find so many cut worms.

What he could do when he had the opportunity was clearly demonstrated.

Over 400 immigrant children were passengers on board the Canadian Pacific liner Minnesota, which sailed from Liverpool for Montreal.

Settlements, one with a population of 240, previously unknown, were discovered during the taking of Japan's first official census last fall.

Taffeta Wrap Topped With Brocade

By Marie Belmont.

Apple blossom pink is the color of the taffeta used in this engaging summer wrap. Tier upon tier the silk is arranged so that the topmost ruffle is much narrower than those below. They are lined with pale blue georgette, which is apparent when the wearer winds her wrap about her. The upper part is fashioned from a rich piece of brocade. In this threads of gold and silver delicately outline the green foliage and the strange looking flowers of pink and blue. One may glimpse a flash of this only occasionally, for a spreading collar of the taffeta partly conceals it.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother Graves' Worm Exterminator.

Inventor of T.N.T.

Visiting Canada

Was Chief of British Chemical Department During War.

A memorable visit to Ottawa culminated in the reception given Prof. Chaim Weizmann, says the Ottawa Citizen. Prof. Weizmann, inventor of T.N.T. and head of the World Zionist Organization, was received at the home of Mrs. A. J. Freeman, 149 Somerset Street, and greeted by 500 persons, comprising the leaders of the Ottawa Jewry and some of its leading citizens.

"Dr. Weizmann made an excellent impression," says The Citizen, "fraternizing with ease and grace with all. Naturally there were many who wished to address the leader of Jewry, and to all he gave gracious audience.

Tall, serious of mien, he entered into the spirit of the occasion with an easiness and a poise that endeared him to all.

"Mrs. Weizmann, too, appeared particularly engaging. She is a doctor of medicine, and rendered valuable assistance to the British cause during the war by taking command of a large hospital during this period. Thus, while her husband was chief of the chemical department to the British admiralty and adviser, Mrs. Weizmann lent her energies to administering to the soldiers fighting for the empire."

Will Plant Corn and Sunflowers.

Considerable acreage near Lethbridge will be planted to corn by former North Dakota farmers, who raised it very successfully there and feel certain that they will make a success of it here. There will also be a big addition to the area planted in sunflowers this spring.

Exhausted From Asthma.

Many who read these words know the terrible drain upon health and strength, which comes in the train of asthmatic troubles. Many do not realize, however, that there is one remedy which will relieve this drain. Dr. J. D. Kellogg's Asthma Remedy is a check to this overwhelming ailment. It has a countless record of relief to its credit. It is sold almost everywhere.

Noble Foundation Not Insolvent.

Denial that the Noble Foundation, the big farming concern south of Calgary, is going into liquidation has been made. It was stated that a receiver had been appointed as a friendly arrangement between the farming company and one or two of its largest creditors. The company was by no means insolvent, it was stated.

Ask for Minard's and take no other

Quickly Conquers Constipation

Don't let constipation poison your blood and curtail your energy.

If your liver and bowels don't work properly, you are liable to suffer from constipation. This causes a host of troubles, such as indigestion, headache and bloated skin. Nothing can equal them. Purely vegetable. Small Pill—Small Dose—Small Price.

Want Canadian Loganberries

Demand For Fruit Juices Increasing In States.

United States buyers are now in Vancouver bespeaking British Columbia logan berries for supplying their logan berry wine, flavoring and cider factories. Prohibition in the United States has created a great demand for fruit juices, and the juice of the logan berry has taken a foremost place.

Sure Protection For You While You Travel

You may find the water bad, some poorly cooked food may excite trouble, a draught from a car window may give you an ache or pain, the cold room or damp sheets may cause rheumatic twinges. Remember this—any pain that is caused by congestion yields rapidly to Nervine. When your stomach is sour and upset, just try the magical effect of twenty drops of Nervine in sweetened water. If cramps when you in the dead of night, Nervine will fix those awful cramps in a hurry. Keep a cent bottle of Nervine in hand always.

Killing Surplus Buffaloes.

The increase in the number of buffaloes in Buffalo Park, Wainwright, Alta., has reached such proportions that it is proposed to slaughter 1,000 of the animals this year. It is expected that a considerable sum will be realized from the sale of the meat, hides and heads.

A Northern Hospital.

Dr. Ings, of Calgary, will have the distinction of operating the first hospital in Canada, when the building now being constructed at Fort McMurray is completed.

Dr. Chase's Nerve Food.

Dr. Chase's Nerve Food is a powerful tonic and blood purifier. It is sold in 30-cent boxes, 5 for \$2.50. All dealers, or S. H. Chase & Co., Ltd., Toronto.

Send a Dominion Express Money Order. They are payable everywhere.

Selling—22 acres, close to city, half cultivated, with buildings and water.

Price, \$2,500 cash. The Fraser Lands Exchange, Grand Forks, B.C.

BOOK ON DISEASES AND HOW TO FEEL BETTER.

Address by the H. CLAY GLOVER

118 West 11th Street, New York, U.S.A.

Cook's Cotton Root Compound.

A safe, reliable, regulating medicine. Sold in three sizes: 25c, 50c, and \$1.00. No. 2, 50c; No. 3, \$1.00 per box. Sold by all druggists, or sent prepaid on receipt of price. Write for pamphlet. Address: THE COOK MEDICINE CO., TORONTO, ONT. (Opposite Waterbury)

ASPIRIN

Only "Bayer" is Genuine

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting Aspirin at all. Take Aspirin only from Bayer. The Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Then you will be following the directions and dosage worked out by physicians during twenty years and proved safe by millions. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Made in Canada. Aspirin is the trade name—registered in Canada—of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

Items of Local and General Interest

Mrs. K. Goode was down from Crows' Nest last week end.

Government control of the liquor business in British Columbia commences June the 15th.

Approximately half a million pounds of timothy seed grown near Pincher Creek has been sold to a large Chicago seed firm.

The following is given as a counter proposal to Lord Shaugnessy: "You take the low road and we'll take the high road!"

Hon. George P. Smith, provincial minister of education, delivered an address at Creston on Tuesday on educational matters.

Quite a number of parties sought relief for the dance fever at Crows' Nest on Friday night last, and all claim that the atmosphere at that point is not nearly so dry as has been reported.

It pays to advertise. Last week we advertised for the owner of a ten-cent piece, picked up near Beard's Camp and located the owner inside of one hour from the time we went to press.

The Mennonites south of Swift Current have disposed of their lands for \$4,500,000 and are departing for southern States and South America. The railway fare of the colony will be around a million dollars.

The Brantford Ministerial Association calls upon all "good men" who voted for prohibition and laid in a supply of liquor to clean up their cellars. To be consistent they ought to follow that advice, but they won't. They filled their cellars to save themselves and voted prohibition to save others. It was a rare combination of selfishness and altruism.

The basket social given by the Tuxie Boys at the Masonic hall last week was a real success, in spite of the fact that so few of the men were in attendance. Mr. Putnam acted in a very able manner as auctioneer and deserves credit for the high figures obtained for the baskets. The sum of about \$80 was realized.

Constable Moriarty, of the provincial police force, met with a painful accident near Coleman on Friday morning last. He was out on parole when the horse in stumbling threw him off and stepped on him, breaking one of his legs. The limb was set by a Coleman doctor and we learn that the constable is doing well.

L. H. Putnam spent Friday last around the prairie and foothills looking for golf balls shot in that direction by the Professor and himself from the Blairmore links. Nestor Bouty, at Burnia, has lodged several complaints with the police that he is being continually annoyed by the showering of golf balls around his sand mine. For a time Nestor understood the phenomenon to be dwarf meteors.

Saskatchewan provincial elections will be held on Thursday next.

Alex. McCool and Silvio Gri were down from Michel on Wednesday.

Sectional houses are being moved into Blairmore from Passburg. Frank and Hosmer at the rate of one a day. This could be kept up for at least a year and not satisfy the demand.

Last Sunday's golf tournament between Blairmore and Coleman on the new Coleman course resulted in a complete victory for the Blairmoreites, every man winning over his Coleman opponent.

At a congregational meeting following the regular service at the Union church on Sunday night last, a vote of the congregation resulted almost unanimously in favor of the retention of Rev. W. T. Young as pastor.

A Nebraska girl writes to a newspaper that she wants for a husband a man who can swear when necessary, stays out at night and chews tobacco. This is the kind of a man many women get, whether they want him that way or not.

D. F. Fleming will move his family down from Fernie and will make his headquarters as drummer for the Western Canada Wholesale Co. at Blairmore. Until a house can be secured locally, Mr. and Mrs. Fleming will reside at Frank's.

A man was fined \$10 and costs in the local police court the early part of the week for refusing to allow himself to be searched, the man's contention being that a police officer has no right to search a man or his premises without producing a warrant.

Fitzsimmons and Palmer made a fight up through The Pass on Thursday last in their machine, the Okla-Appa. We understand they had with them a moving picture photographer lining up pictures for a film featuring the holding up of a train at Saultina and the final capture of Bassoff and escape of Areloff.

R. T. Lowery, editor and publisher of The Greenwood, B. C., Ledge and "Lowery's Claim," died at Grand Forks on May the 20th, following a lingering illness. Colonel Lowery was one of the best known pen slashers in the West and spent some thirty years in the Kootenay district. He was the father of no less than eight Kootenay papers, namely, Lowery's Golden Claim, published at Rossland in 1898; Lowery's Claim in Vancouver, New Denver and Nelson; The Paystreak in 1896; The Slokan Drill in 1900; The Nugget at Poplar in 1903; The Ozonogram at Vancouver in 1908 and the Similkameen Star in 1914. Lowery has made millions laughing with his wit and humor.

Born, to Mr. and Mrs. D. A. Howe, a daughter, No. 2.

C. F. Sedgwick, of Lundbreck, is a business visitor in town.

A cannon ball has been fired at a speed of two thousand miles an hour.

An electric train in tests between Berlin and Zoswen made 100 miles an hour.

A N. Donmore was up from Lundbreck yesterday, taking in the sights.

Pincher Creek and Fernie are planning sports programmes for July the 1st.

J. Smith, inspector of high schools, will be in The Pass from Edmonton next week.

The Pincher Creek girls basketball team were the guests of Misses Ola and Rhoda McLaren on Saturday evening before returning home.

Sixteen new sets of golf clubs and fourteen dozen golf balls arrived here by special train on Monday, consigned to Professor Conway.

Rev. K. Munro, of St. Matthew's Presbyterian church, North Sydney, received a call from Lethbridge Knox church, but declined to accept.

W. E. Henderson, painter and decorator, has taken into partnership Mr. Charles Hughes, who we understand is thoroughly accomplished in all lines of the trade.

The office building of J. E. Gillis is greatly improved, following an operation performed by Dr. Harry Anderson, of the fraternal order of painters and decorators.

Joe Same Nut, brother of Lee Line, arrived here from China on Monday. Nut is so fresh away from home that you can still smell the Scotch heather off him.

A Pittsburg man was married on Thursday and on Saturday was arrested for chasing his wife with an axe. Married couples must not expect to get thoroughly adjusted to each other's idiosyncrasies until the honeymoon is over.

Two golfists out of London, Ontario, covered 167-mile course in six days and four and a half hours. It's a safe bet that our local professor could have made that distance in six shots, four holes and twenty sweats.

Miss MacGregor, field secretary of the W. M. S., will visit Coleman on Sunday next. In the forenoon she will address the Sunday school and at the evening service will speak. Miss MacGregor is a fluent and forceful speaker.

The new residence erected by contractor Pozzi at the corner of Tenth Avenue and Victoria street, is just about completed and is without any exception, the most attractive and best designed cottage in The Pass. We understand that the house will be occupied by Mr. and Mrs. L. H. Putnam.

An important real estate deal was consummated on Wednesday, when the vacant corner of Seventh Avenue south and State Street became the property of Alex. McCool, of Michel. We understand that Mr. McCool has purchased the Bank of Montreal building at Hosmer, which he will move here and place on the new site to be converted into a residence. The building is one of the finest appointed in the old town of Hosmer.

A. Oliva has opened up the grocery trade under the style of Blairmore Cash Grocery, in the store formerly occupied by the Belgian-Italian Co-operative. He has a large and well assorted stock of fancy and staple goods and his store presents a very attractive appearance. See his ad. elsewhere in this issue.

Supt. W. C. Bryan and wife, of Edmonton, were in Blairmore on Sunday last.

Opening

ANNOUNCEMENT

We have just opened at the old stand of the Blairmore Co-Operative and invite you to pay us a visit and look over our

First-Class Grocery Stock

Also to notice that our prices are such as will save you money. We intend to sell for cash and will have no bad accounts requiring you to help us pay for. We don't keep a book-keeper and consequently you will not have to pay for that. Less expenses means that we can sell cheaper for cash and thus benefit our customers. Following are a few articles to which we wish to direct your attention. Others you can see when you call in.

Look These Over

Granulated-Sugar, 10 lb sack	\$1.40
Granulated-Sugar, 20 lb sack	\$2.75
